INTRODUCTION

This guide will show you how to navigate the Member Directory so you can make maximum use of its capabilities. The BPG Member Directory has been created to help BPG members get to know their fellow members more easily.

The directory is accessible to BPG members only, utilizing a user ID and password. This guide assumes that you have assigned yourself a password and can successfully log in.

Once logged in the directory page will display the directory list.

On the left hand side is a profile picture. Directly below the picture are the member's interests. Members are initially assigned an interest of 'No Interests' (see a sample of this on the third profile) so when picking your interests, as you will see later, you will want to delete the 'No Interests' interest. Yes, it's a little strange but just go with it. On the right side of the profile is the Name, Home address (you can leave off the street address if you are uncomfortable providing it), phone number, email address, cameras, and website links. At the bottom of the compressed profile are links to reveal bio, editing software and map.

A fully expanded profile can look like this.

Biography

I grew up in the Washington D.C. area. I have had a technical bent since 10th grade when then I attended one of the first vocational high schools with a computer science curriculum. I my twenties I developed an interest, if not skill, in photography. Starting in my fifties I expanded my education in photography and have slowly improved my eye and skills generally. I enjoy being in the field and wood turning which also satisfies my creative/artistic side. I'm trying to find more joy in the digital Mostly I'm trying to develop my artistic side.

You could scroll through the directory page by page with the controls provided at the bottom of each page until you found the profile you were looking for.

Or you can use some of the search/filter tools provided. The first of these tools we will discuss is the alphabetic character list shown at the bottom right of the image below.

If you were to select the letter K for example, you list would consist of only this profiles whose last name starts with K. Notice the message box now at the top of the display indicating how you have filtered the list.

- The results are being filtered by the character: K

FILTERING PROFILES BY INTEREST

A typical way you might want to filter the list is by Interest. We ask that you include interests in your profile specifically for this reason. Let's for example ask to filter the list to those profiles that have an interest in Landscape/Travel. We do this by first clicking on the dropdown box for Interest and the selecting the desired interest of Landscape/Travel.

The results might look like this.

• You are searching within category(ies): Landscape/Travel

FILTERING BY GEOGRAPHY AND USING MULTIPLE FILTERS

Another typical way of filtering is zip code. Let's Larry Baker is looking at his profile and wants to see who else is in his zip code.

Lawrence Baker
Home
2950 Mt. Wilkinson Pkwy
Unit 613
Atlanta GA 30339
Cell Phone: 404-610-7709
Email: baker.lawrence42@gmail.com
Camera: Olympus OMD EM1 Mark II

Interests: Black & White, Landscape/Travel, Nature/Wildlife, People/Portraiture/Models, Post-processing of images, Still life/Macro
[Show Editing Software](#) [Show Map](#) | 

All that Larry needs to do is click on the zip code that is showing in his profile (note – this can work for anyone's profile), and he then sees everyone that shares his zip code.

• The results are being filtered by the postal code: 30339

If Larry were to then select an interest, for example Black & White, both filters are used together as you can see by the message provided. Larry now know who around him shares his interest in Black and White.

- You are searching within category(ies): Black & White
- The results are being filtered by the postal code: 30339

Another approach would be to use the search box. For example, Lynn Henderson wants to see which members live in Cartersville. Lynn puts Cartersville in the Search box and presses enter. The result looks something like this. Note that capitalization is ignored – compare the two profiles.

• You are searching for the keyword(s): Cartersville

GETTING FANCY WITH SEARCH

The search box can apply to zip codes, cities, states or editing software. You can search for multiple entries. Regardless of the formatting, the search will be interpreted as if you had said 'item 1 or item 3 or.....' Unfortunately this means if you say '30062 and Photoshop' it will be interpreted as '30062 or Photoshop'.

The first screenshot shows a search interface with a message: "You are searching for the keyword(s): 30062 30339, 30062, 30339". Below this is a "Select Interest" dropdown menu and a search input field containing "30062 30339". A "Clear Search" link is in the top right. Below the search bar is an alphabetical index: A B C D E F G H I J K L M N O P R S T V W Z.

The second screenshot shows a similar interface with a message: "You are searching for the keyword(s): Cartersville 30339, Cartersville, 30339". The search input field contains "Cartersville 30339". The rest of the interface is identical to the first screenshot.

The interest filter can always be added to narrow the search.

This screenshot shows the search interface with two filters applied. The message reads: "You are searching within category(ies): Infrared" and "You are searching for the keyword(s): Lightroom Photoshop, Lightroom, Photoshop". The "Select Interest" dropdown menu now shows "Infrared (3)". The search input field contains "Lightroom Photoshop". The "Clear Search" link is in the top right. The alphabetical index below the search bar is: A B C D E F G H I J K L M N O P R S T V W Z.

Looking for help in your area? Here Phoebe Photographer first scrolls through the directory list landing on her profile. First she clicks her zip code, then searches for Photoshop and finally selects Post-processing of images as the interest. This will give Phoebe a good idea where she might find local people who could potentially help her with her Photoshop question.

This screenshot shows the final search criteria. The message reads: "You are searching within category(ies): Post-processing of images", "You are searching for the keyword(s): Photoshop", and "The results are being filtered by the postal code: 30339". The "Select Interest" dropdown menu shows "Post-processing of images". The search input field is empty. The "Clear Search" link is in the top right. The alphabetical index below the search bar is: A B C D E F G H I J K L M N O P R S T V W Z.
